

Creates visual PNG reports showing tech levels for members with a specific role, who have opted to share with this guild, sorted by capability. Users could query other types of modules; for this example, combat modules were used.

- Requires fetching complete member list filtered by role assignment.
- Needs access to: displayName, role membership
- Without intent: Cannot reliably fetch all members with a role, resulting in incomplete reports.

[illegible]

Creates a csv report showing all tech levels for members with a specific role, who have opted to share with this guild, sorted by capability. This format is suitable for import into Excel or Google Sheets.

- Requires fetching complete member list filtered by role assignment.
- Needs access to: displayName, role membership.
- Without intent: Cannot reliably fetch all members with a role, resulting in incomplete exports.

Users choose to share their technology levels with different guilds (corporations) and can remove one at any time via this command.

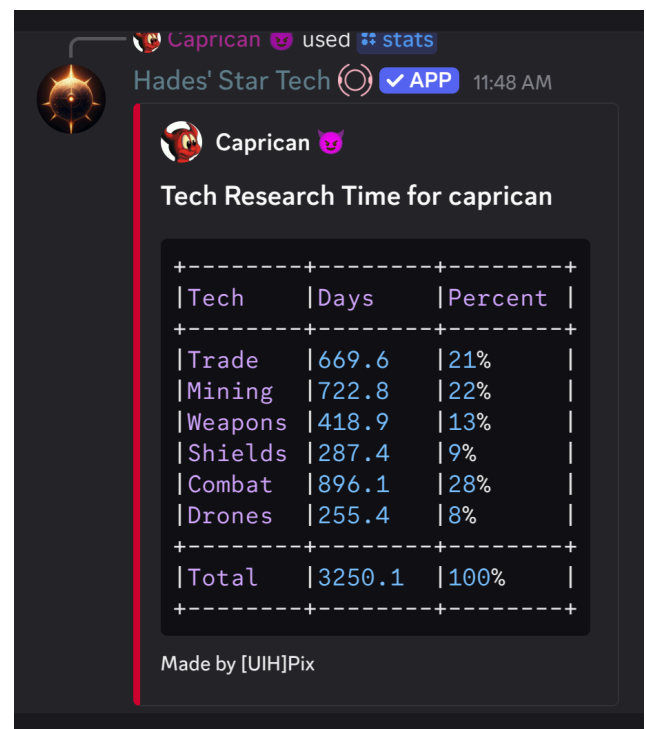

/tech  
/tech user:@caprican

Generates a png showing a user's complete tech profile with icons and levels for 60+ different technologies, including their display name, guild icon, and avatar. Users can view their own tech card or view other opted-in members' cards. Users can customize display templates for their tech cards.

/stats  
/stats user:@caprican

Calculates and displays completed research time based on user tech levels. Gives a break-down of how much time was spent in each type of tech. Users can view their own or other opted-in members.

`/signup`

A signup roster for the 5-day dungeon raids / group pvp event.
